Author Information

Reviews

"The book is very interesting and is written on a high scientific level..." (*Mathematical Reviews*, 2006c)

"...a unique and perfect book for researchers and practitioners who want to get a grasp of this new exciting area." (*Journal of Intelligent & Fuzzy Systems*, Vol. 16, No. 2, 2005)

"...a well-written and timely book, the first of its kind...a welcome contribution to pattern recognition...I would keep this book in my library." (*Technometrics*, November 2005)

"...destined to become essential reading..." (*Zentralblatt MATH*, Vol. 1066 (17), 2005)
